PROFESSIONAL SUMMARY

Flutter & Android engineer shipping production apps used by 10,000+ users. Strong in Clean Architecture, Bloc/Cubit & MVVM, Firebase, payments (Razorpay / Stripe / PayPal), maps, and Play Store + App Store releases. 99.5%+ crash-free sessions; 30% faster API loads via offline caching. Full project case studies, screenshots, and store links on my portfolio.

TECHNICAL SKILLS

Mobile: Flutter, Dart, Kotlin, Jetpack Compose, iOS releases
Architecture: Clean Architecture, MVVM, Bloc/Cubit, Provider, Riverpod, DI (GetIt, Hilt)
Backend & Data: REST, Firebase (Auth, Firestore, FCM, Crashlytics), Room, Hive, SQLite
Integrations: Razorpay, Stripe, PayPal, Google Maps, Geofencing, Deep Links
Quality & Delivery: Unit Tests, Crashlytics Triage, CI/CD, Phased Store Rollouts
Tools: Android Studio, VS Code, Xcode, Git, Postman

EXPERIENCE

Software Developer — Flutter & Android (Kotlin)

Aug 2024 — Present

WebMobril Technologies Pvt. Ltd. · Noida

- Architected 3 Flutter and 1 Kotlin Compose production apps; cut feature delivery ~20% via shared widget/utility libraries.
- Maintained 99.5%+ crash-free sessions using Crashlytics alerting and top-crash remediation within two weeks per release.
- Reduced API load time 30% (1.8s → 1.3s) with Room/SQLite + Hive caching and expiry-based invalidation.
- Shipped Razorpay, Stripe, and PayPal flows for 10,000+ users with zero payment-related production incidents over six months.
- Raised unit-test coverage from 0% to 45% on core logic; owned Play Store and App Store releases across multiple titles.

Flutter & Android Developer

Jul 2022 — Aug 2024

Ghoul Web Solutions · Noida

- Delivered 5 Flutter and 2 native Android apps from greenfield to production (~11 weeks average per app).
- Resolved 40+ production crashes; improved Play Store ratings from 3.8 to 4.4 through structured Crashlytics analysis.
- Reduced UI bug reports 25% with a Material Design 3 pre-release checklist; mentored 2 juniors (~3 weeks faster onboarding).
- Optimized Firestore list screens to under 1s for 5,000+ records using indexes, limits, and keyset pagination.

SELECTED PRODUCTION APPS

- Employmint — HR & ERP (Flutter) · ~60% admin processing · Play + App Store
- Garden Groceries — Grocery delivery (Flutter) · Realtime cart sync · Play + App Store
- Garage X User + Provider — Vehicle services marketplace (Flutter) · Maps, Stripe, live job pipeline · Play + App Store
- Giftrr — Digital gift vouchers (Flutter) · 4.5★ · 42% FCM open rate · Play + App Store
- Weather Democracy — Weather community app (Android native, Kotlin, MVVM) · AccuWeather API + community voting · Play Store
